

I believe Brian Daly Construction, Inc. secured my roof for the next 30 years and eliminated all roof worries from my mind. While away in Florida the month of March, Brian sent me a contract, samples of shingles, and a satisfactory financial arrangement. He and his fine crew removed the old shingles, put on the new, ridge vents in place, new gutters installed, and cleaned-up all debris to perfection. The work was completed to my satisfaction on my arrival home to Cape Cod.

During those torrential rainstorms early this spring, I simply called Brian to correct a problem around the chimney with water seeping in. His personnel immediately fixed the problem. They responded twice on their own, to insure the situation was corrected.

As a single, senior, female I have complete confidence in Brian's work and professionalism!
